Welcome to my office. By coming in today you have made a commitment to your health. I hope you enjoy your experience with Naturopathic Medicine as we work together to help you attain your full health potential.

Naturopathic Medicine is the treatment and prevention of disease by natural means. Naturopathic Doctors assess the whole person, taking into consideration physical, mental, and spiritual aspects of the individual.

Individual diets and nutritional supplements are recommended to address deficiencies, treat disease, and promote health.

Botanical Medicine is the use of plant-based medicine that involves herbal teas, tinctures, capsules and other forms of herbal preparations to assist the body as it moves towards health and healing.

Homeopathy is a form of medicine based on the Law of Similars – that is, the use of tiny doses of the very substance that causes symptoms in a healthy person will eliminate those symptoms in a sick person. These tiny doses are used to stimulate the body's ability to heal itself.

Oriental Medicine includes the use of acupuncture, Eastern herbs and dietary changes to eliminate disease and balance body functions. Acupuncture refers to the insertion of sterilized disposable needles through the skin into underlying tissues at any of the hundreds of specific points on the body.

Physical Therapies refer to the use of hands-on techniques such as soft tissue manipulation, cupping therapy and hydrotherapy, which is the use of hot and cold water to stimulate the immune system and improve circulation.

Lifestyle counseling involves identifying risk factors and making recommendations to help optimize one's physical, mental, and emotional environment.

During your initial visits, your Naturopathic Doctor will take a thorough case history and perform a basic/complaint-oriented physical examination, and when indicated, take blood or urine samples.

Even the gentlest therapies may cause complications under certain physiological conditions. This depends greatly on the individual and the extent of the illness. For this reason, it is very important that you inform your Naturopathic Doctor of any and all disease processes that you are suffering from, as well as any medications (prescription or over-the-counter) that you are taking.

Health risks associated with Naturopathic Medicine include but are not limited to:

- Aggravation of pre-existing symptoms during the healing process.
- Allergic reactions to supplements or herbs.
- Pain, bruising or injury from venipuncture or acupuncture.
